Hertz	(623) 872-1368	Wigwam Resort	(623) 935-3811

Recommended Noise Abatement Procedures

- ✈ Remain above pattern altitude until necessary to descend lower for landing
- ✈ Avoid long, low, power-on approaches
- ✈ Remain at or above indicated glide slope on final approach
- ✈ Avoid noise sensitive areas west and northeast
- ✈ Runway 21 designated calm wind runway
- ✈ Climb initially at aircraft's best angle of climb (V_x) until reaching 2000 feet MSL, consistent with safety, then reduce to cruise climb setting
- ✈ Use standard 45 degree left or right turn departing Runway 21
- ✈ No downward departures
- ✈ Upon departing Runway 03 make immediate right turn or 45 degree left turn before crossing Litchfield Road
- ✈ Cross I-10 at or above 2000 feet MSL

NOTE: The above procedures are recommended for departures at Phoenix Goodyear Airport. They are not intended to abrogate safe aircraft operations.
